Registration: <https://www.webpolsurveys.com/S/C6DED8DA949A5F75.par>

CRISMA is an Integration project financed under the Security theme of the Cooperation Programme of the 7th Framework Programme of the European Commission. CRISMA Integration Project focuses on large scale crisis scenarios with immediate and extended human, societal, structural and economic, often irreversible, consequences and impacts. The CRISMA project shall develop a simulation-based decision support system for modelling crisis management, improved action and preparedness. The CRISMA System shall facilitate simulation and modelling of realistic crisis scenarios, possible response actions, and the impacts of crisis depending on both the external factors driving the crisis development and the various actions of the crisis management team. Our project members in Finland are VTT Technical Research Centre of Finland, Finnish Meteorological Institute and Insta DefSec. For more information about the project can be found from the website <http://www.crismaproject.eu/>
